

RFQ PR9060221 – TOTAL STATIONS

QUESTIONS AND ANSWERS

Q1: We are interested in participating submitting a competitive proposal related to the RFQ PR9060221, however we would like to know more information about the requirement “Must comply with the international accreditation standard (in country)”. In this a mandatory requirement to participate?

A1: Yes, it is important to comply with international standards since the lab is looking for a future accreditation for its processes.

Q2: Could the calibration service and the maintenance service be completed on the same day? Or is it required one separate day for each service?

A2: They can both be completed the same day if the vendor has the availability to do so without affecting the service.

Q3: Would the delivery address be at the Embassy Warehouse in Tegucigalpa?

A3: No, but delivery address will be in Tegucigalpa

Q4: What city(s) and department(s) would the calibration and maintenance services be completed? Would the location change every year?

A4: Calibration and maintenance service would be in Tegucigalpa and San Pedro Sula. Location won't change.

Q5: Is there a HUBZone price evaluation preference for this RFQ since there are no set asides?

A: No, there isn't.
